Why do we use CCB?
Community is an essential part of New Life. Church Community Builder (CCB) is an online tool designed to help us connect and build that community with each other. CCB not only provides information about the people, the groups and the volunteer opportunities at New Life, but also allows you to view your giving records and update your contact information to make sure you receive important communication from the church. It's the communication hub for all things New Life.

How do I use CCB?
A great way to learn CCB is to login and spend some time browsing around and checking out all the features. Once you are logged in, you can click on your profile (top right side of the page) and add your picture, phone number, email, address. Then click on the "Actions" tab to explore other things you can do with your profile.

Entering Abilities into CCB

Once logged into CCB, find your Profile, click ACTIONS, click My Fit.
